

Planning Stage Peer Feedback Form

Please answer the four prompts below in a separate document. Include the date you are filling this form out at the top.

1. Rate your team's communication:

Great: Everyone on the team sufficiently communicates with one another. There were no communication issues. Reaching out to each other and exchanging required info is easy. Team members respond to each other in a timely manner.

Okay: Everyone on the team sufficiently communicates with one another. There may have been a small communication issue, but it was resolved quickly. Reaching out to each other and exchanging required info is easy. Team members respond to each other, but occasionally not in a timely manner.

Bad: Not everyone on the team sufficiently communicates with one another. There may have been numerous communication issues, and they may have taken too long to get resolved (or may not have gotten resolved at all). Reaching out to each other and exchanging info feels difficult. Team members regularly don't respond to each other or in a timely manner.

Explain your choice. Please give praise or criticism where you feel it is warranted. I encourage you to self-praise or self-criticize if applicable.

2. Rate your team's work ethic and collaboration:

Great: Everyone on the team is on top of their work. Each team member contributes sufficiently and effectively to the work that needs to be completed. Division of work between team members feels fair. Each team member trusts all other team members that the work they do will be high quality.

Okay: The team gets their work done, although some team members may procrastinate, which may lead to some stressful times. Each team member contributes to the work that needs to be completed, although some team members may be not quite be contributing their fair share, even if unintentional. Division of work between team members feels fair for the most part, although it could be better.

Bad: The team is not getting their work done, or some select team members are not getting their work done causing other select team members to have to pick up their slack. Not all team members are contributing to the work that needs to be completed. Division of work between team members does not feel fair.

Explain your choice. Please give praise or criticism where you feel it is warranted. I encourage you to self-praise or self-criticize if applicable.

3. Did your team manager(s) positively contribute to your team? Be honest, as this feedback is needed for the SER350 Project Management course.
4. Is there anything else you'd like to share? Any kudos you'd like to give out? Anything you need from your instructor? Anything your instructor should keep an eye out for? Are you enjoying your time in this course so far, and if not, is there anything that can be done to make it more enjoyable? You do not need to put anything here if you don't have anything more to say.
